**Database:** MySQL  
**Developer Tools:** Git, GitHub, VS Code, Eclipse IDE, Spring Tool Suite for developers.

## SOFT SKILLS

Problem-solving, Excellent communication, Team Player, Active listening, Flexibility, Adaptability, Creativity, Time Management, Leadership.

## PROJECTS

### Personal Expense Tracker:

- Engineered a comprehensive web application that empowers users to monitor and manage their personal finances effectively.
- Integrated secure user authentication to protect sensitive financial data, ensuring a personalized experience. The application features an intuitive interface for easily entering and categorizing expenses. Users can set financial goals and receive alerts for budget overruns.

### Academic Project Hub:

- Developed an innovative collaborative platform designed for students to curate and share their academic projects. Streamlined the project submission process by enabling users to upload detailed project descriptions, multimedia presentations, and resources. The platform includes user profiles that foster interaction and networking among peers, encouraging collaboration on projects.
- Enhanced features such as advanced search capabilities and categorization allow users to quickly find relevant projects and resources, promoting a vibrant academic community and facilitating knowledge exchange among students.

## CERTIFICATIONS

RESPONSIVE WEB DESIGN	Free Code Camp
PROGRAMMING ESSENTIALS IN PYTHON	Cisco Networking Academy

## DECLARATION

I declare that the information provided above is true to the best of my knowledge.
